What is Youthbank?

YouthBank are a group of young volunteers aged 12 – 18 who form a group of young grant makers. The young grant makers fund projects and ideas developed by other young people across the city. This means that people get a real chance to fund youth activities and projects in their local community.

What will I be doing if I get involved?

You'll take part in training with other interested young people and then explore your community's needs. There are three Youthbank groups, so you'll meet other young people from across your area.

You'll regularly make decisions about whether or not to give money to other young people to run community projects based on whether you think they're a good idea.

How will this benefit my community?

You'll help your community by making sure that more young people have access to activities to get involved in, more chances to express themselves and learn skills they need. You will set the priorities, so you'll have a say in what activities get the go ahead.

What will I get out of it?

You'll have a fantastic opportunity to get involved in your local community, get lots of experience that can be used on CVs, in interviews and for college and university applications. You'll also get some real qualifications and awards to help too.

It's a great opportunity for you to build your skills and confidence.

How can I get involved?

Scan the QR code or visit our website to find out more, or if you're not yet ready to sign up, drop us an e-mail and we will have a chat about the best way you can get involved.
